

Entre Almas

This show is inspired by the dedication and hard work of the Alma Flamenca Dance School students themselves. Entre Almas realises the idea to provide the entire school with a professional platform to showcase their repertoire while also providing a performance mentorship program between the professional Performance Company and the Dance School students. It is an opportunity to celebrate the achievements of all dancers across all levels at our school, and the fact that, for all of us, Flamenco is a powerful channel for the soul to express.
